ALTERNATIVE BUDGET BILLING PLAN

Budget Plan. Upon request of the Member-Consumer, and upon the approval of the Corporation, a budget plan for payment of electric service bills may be used. On the basis of actual experience or estimated consumption where there is no actual experience, the Corporation will compute the annual energy charge for all purposes and divide same by 12. At the end of the 11th month, the difference between the actual charge and the budget plan shall be payable with the bill for the twelfth month of the billing period. All monthly net bills and any additional payment due shall be subject to any collection charges and terms of payment as specified in this schedule.
